

## DIGITAL FORMS

Simplify data collection and let your field employees focus on getting the job done.

Simpro Digital Forms streamlines data capture and the creation of electronic forms. Digital Forms makes it easy to customize forms, lets field technicians swiftly collect data when on-site, and quickly syncs with Simpro Premium.

### Simplify Field Data Collection

Transform your field operations and empower your team to easily fill forms from their mobile devices while on the job site. Data effortlessly syncs up and forms are intelligently auto-populated with geo-location tags, timestamps, and Simpro Premium linked data. Collect signatures, use barcodes, and insert photos or drawings. Conditional logic streamlines the process, capturing precisely what you need. Then instantly share details with customers, the office, or others in the field.

### Easily Create Customized Digital Forms

Intuitively design, customize, and edit forms with drag-and-drop capabilities to create required field forms, or take a shortcut and access pre-built forms. Then configure fields to capture project specifics and crucial job details. In addition, you can seamlessly collaborate with team workflows to document safety and compliance data.

**8,500+ businesses trust Simpro for  
field service management**

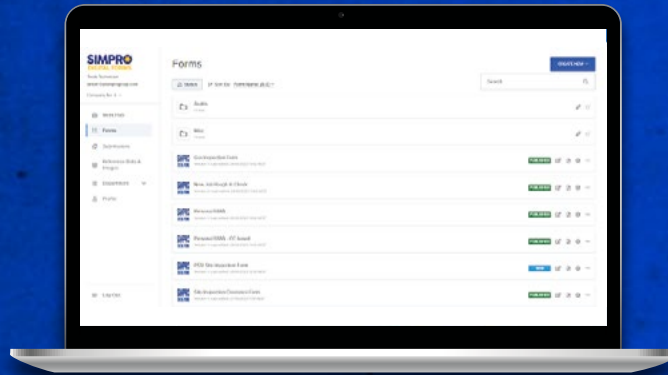

### Automatically Sync with Simpro

Streamline your operations with a seamless link to Simpro Premium. Enhance data accuracy and save time by automatically distributing forms to jobs. A centralized form database and management system gives the office the power to efficiently coordinate workflows, ensure version control, and keep records straight.
